

INTERN WEB DEVELOPER RESUME

Chung cư lô A5, Tân Hưng Thuận , Q12, HCM, VN
(84) 0589.317.493
trangiangzxc@gmail.com

I am a second-year student studying web development and I am currently seeking an internship opportunity. I have a strong foundation in programming and design skills. I am enthusiastic about learning and I am eager to contribute to the success of the team.

PERSONAL PROJECT

Electro Online Shopping

Sep 2023-Nov 2023

Member: 3 - Role: Leader

- Technologies: PHP, Laravel Framework, MySQL, jQuery, Ajax, Dialogflow, NodeJs, Express.js, Socket.io, OOP, MVC pattern
- Developed an electronic devices online shopping platform using Laravel, focusing on Object-Oriented Programming (OOP) and following the Model-View-Controller (MVC) pattern.
- I created a user-friendly platform that enables people to register, purchase items, and effortlessly finalize their orders. The platform comes with an AI chatbot for support, multi checkout method, e-wallet. Additionally, it features a dedicated dashboard for managing products, orders, users, multiple levels of categories, coupons, and real-time chat communication between administrators.

Socio - Social Media Website

January 2023 March 2023

Member: 1 - Role: Main Coder

- Technologies: ReactJS, NodeJS, MongoDB, Socket.io, UI/UX Design
- Developed Socio, an online platform using React.js and Node.js, with MongoDB as the database system and Socket.IO for real-time communication.
- Implemented features such as user registration, profile management, social networking, and real-time messaging.
- Utilized React.js for building interactive user interfaces, Node.js for server-side development, and MongoDB for efficient data storage and retrieval.
- Integrated Socket.IO to enable real-time communication between users.

Etrade Online Shopping

July 2023-August 2023

Member: 1 - Role: Main Coder

- Technologies: PHP, MySQL, jQuery, (OOP), Model-View-Controller (MVC) pattern
- I developed an online shopping platform for electronic devices using PHP, focusing on implementing Object-Oriented Programming (OOP) principles and adhering to the Model-View-Controller (MVC) pattern.
- Admin Dashboard: I designed and developed an intuitive admin dashboard with specialized privileges. This dashboard enables efficient management of products, orders, and user data.
